About

The National Citizen Survey™ (The NCS) report is about the “livability” of Clovis. The phrase “livable community” is used here to evoke a place that is not simply habitable, but that is desirable. It is not only where people do live, but where they want to live.

Great communities are partnerships of the government, private sector, community-based organizations and residents, all geographically connected. The NCS captures residents’ opinions within the three pillars of a community (Community Characteristics, Governance and Participation) across eight central facets of community (Safety, Mobility, Natural Environment, Built Environment, Economy, Recreation and Wellness, Education and Enrichment and Community Engagement).

The Community Livability Report provides the opinions of a representative sample of 267 residents of the City of Clovis. The margin of error around any reported percentage is 6% for the entire sample. The full description of methods used to garner these opinions can be found in the *Technical Appendices* provided under separate cover.

Quality of Life in Clovis

Almost all residents rated the quality of life in Clovis as excellent or good. This rating was similar to the national benchmark (see Appendix B of the *Technical Appendices* provided under separate cover).

Shown below are the eight facets of community. The color of each community facet summarizes how residents rated it across the three sections of the survey that represent the pillars of a community – Community Characteristics, Governance and Participation. When most ratings across the three pillars were higher than the benchmark, the color for that facet is the darkest shade; when most ratings were lower than the benchmark, the color is the lightest shade. A mix of ratings (higher and lower than the benchmark) results in a color between the extremes.

Overall Quality of Life

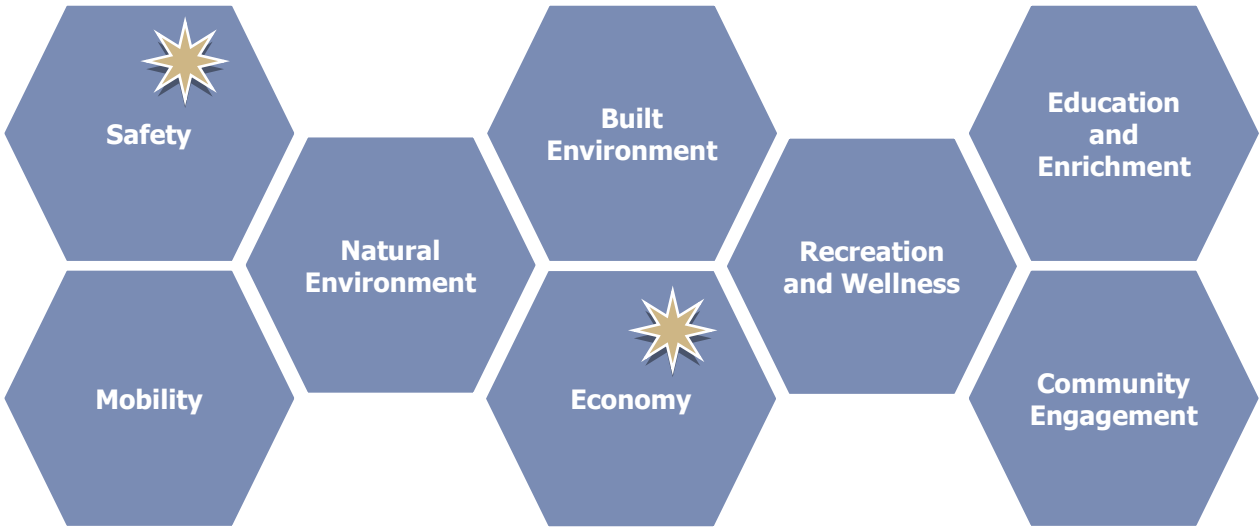

In addition to a summary of ratings, the image below includes one or more stars to indicate which community facets were the most important focus areas for the community. Residents identified Safety and Economy as priorities for the Clovis community in the coming two years. Clovis residents gave favorable ratings to both of these facets of community. Ratings for Mobility, Natural Environment, Built Environment, Recreation and Wellness, Education and Enrichment and Community Engagement were also positive and similar to other communities. This overview of the key aspects of community quality provides a quick summary of where residents see exceptionally strong performance and where performance offers the greatest opportunity for improvement. Linking quality to importance offers community members and leaders a view into the characteristics of the community that matter most and that seem to be working best.

Details that support these findings are contained in the remainder of this Livability Report, starting with the ratings for Community Characteristics, Governance and Participation and ending with results for Clovis’ unique questions.

Community Characteristics

What makes a community livable, attractive and a place where people want to be?

Overall quality of community life represents the natural ambience, services and amenities that make for an attractive community. How residents rate their overall quality of life is an indicator of the overall health of a community. In the case of Clovis, 93% rated the City as an excellent or good place to live. Respondents' ratings of Clovis as a place to live were similar to ratings in other communities across the nation (national benchmarks) and to Western communities with populations and income levels similar to Clovis (custom benchmarks).

In addition to rating the City as a place to live, respondents rated several aspects of community quality including Clovis as a place to raise children and to retire, their neighborhood as a place to live, the overall image or reputation of Clovis and its overall appearance. About 9 in 10 respondents gave positive ratings to Clovis as a place to raise children and to the City's overall image. These ratings were higher than the national and custom benchmark comparisons. Ratings for neighborhoods as places to live, the overall appearance of Clovis and the City as a place to retire were rated as excellent or good by at least three-quarters of participants. These ratings were similar to ratings given in other communities across the nation and tended to be higher than custom jurisdictions.

Delving deeper into Community Characteristics, survey respondents rated over 40 features of the community within the eight facets of Community Livability. At least 9 in 10 residents gave positive ratings to the overall feeling of Safety in Clovis, as well as to feelings of safety in their neighborhoods and in the City's downtown/commercial area. All of the aspects of Mobility were rated positively by at least half of the respondents. Participants gave the highest ratings to Clovis' paths and walking trails, ease of walking and ease of travel by

bicycle. About 8 in 10 residents gave them positive ratings, and these ratings were higher than the national benchmarks. The facets of Built Environment, Economy, Recreation and Wellness, Education and Enrichment and Community Engagement were also rated positively by a majority of residents. Within these facets, overall built environment, quality of new development in Clovis, overall economic health, the vibrancy of Clovis' downtown/commercial area, shopping opportunities, employment opportunities, the City as a place to work, quality of education and enrichment opportunities, adult education, K-12 education and the availability of quality affordable child care/preschool were rated positively by at least 56% of residents and were rated higher than other communities across the nation. Ratings

within the facet of Natural Environment were mixed, with nearly 8 in 10 rating overall natural environment and the cleanliness of Clovis as excellent or good, a level similar to other communities, while the City's air quality was given high marks by only about 3 in 10 residents, which was lower than levels seen elsewhere.

Where comparisons were possible, 25 items were similar from 2013 to 2015 and ratings for 11 items increased over time, including traffic flow, ease of walking, paths and walking trails, overall natural environment, employment opportunities, recreational opportunities, preventative health services, availability of cultural/arts/music activities, availability of quality affordable child care/preschool, availability of religious or spiritual activities and the overall image of the City. No items in the pillar of Community Characteristics decreased since the last iteration of the survey (see the *Trends over Time* report provided under a separate cover for more detail).

Governance

How well does the government of Clovis meet the needs and expectations of its residents?

The overall quality of the services provided by Clovis as well as the manner in which these services are provided are a key component of how residents rate their quality of life. Residents' ratings for Clovis' quality of services were similar to the national benchmark and 84% of respondents rated them as excellent or good. About one-third of respondents gave excellent or good ratings to the overall quality of services provided by the Federal Government.

Survey respondents also rated various aspects of Clovis' leadership and governance. At least 6 in 10 reported high ratings for all of the aspects of Clovis' leadership and performance. The quality of customer service provided by Clovis employees was the highest rated aspect (77% excellent or good). Most ratings for aspects of Clovis' governance were higher than national and custom benchmarks.

Respondents evaluated over 30 individual services and amenities available in Clovis. At least 6 in 10 residents gave positive ratings to all aspects of Safety in Clovis. Survey participants rated the City's police and crime prevention services higher than the national benchmarks, the remaining aspects were similar to ratings given in other communities. Within the facet of Mobility, street repair, street cleaning and bus or transit systems were highly regarded by residents and tended to be rated higher than elsewhere. Exceptionally high marks were also given within the facets of Natural Environment (yard waste pick-up), Built Environment (land use, planning and zoning) and Economy (economic development), with at least two-thirds of respondents rating these items as excellent or good; levels higher than ratings in national and custom comparison communities. All measures of the facets of Recreation and Wellness, Education and Enrichment and Community Engagement were rated positively by at least 7 in 10 citizens and were similar to the national benchmark.

Overall Quality of City Services

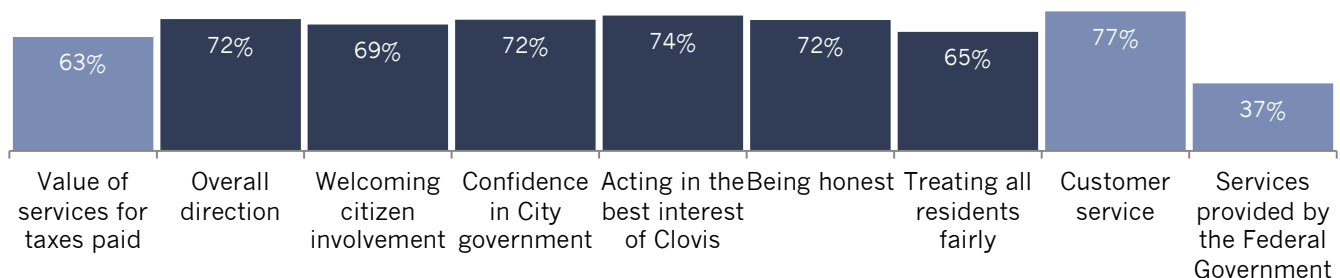

When comparing the 2015 results to 2013 results, increases were seen for street repair, land use, planning and zoning, recreation programs and the job that Clovis does at welcoming citizen involvement.

Participation

Are the residents of Clovis connected to the community and each other?

An engaged community harnesses its most valuable resource, its residents. The connections and trust among residents, government, businesses and other organizations help to create a sense of community; a shared sense of membership, belonging and history. About 77% of residents gave positive ratings to the sense of community in Clovis. This rating was higher than ratings in comparison communities.

Nearly all residents reported that they would recommend Clovis as a place to live (96%) and plan to remain in the City for the next five years (93%). Clovis residents were more likely than residents in comparison communities to recommend living in Clovis. Close to half of respondents reported that they had contacted a Clovis employee in the 12 months prior to the survey, a level similar to levels reported in other communities.

The survey included over 30 activities and behaviors for which respondents indicated how often they participated in or performed each, if at all. Levels of participation measured in the survey varied widely; most rates of Participation were similar to other benchmark communities. A vast majority of residents had purchased goods or services in Clovis (97%), read or watched local news (89%), talked to or visited with their neighbors (88%), voted in local elections (86%) and ate five portions of fruits and vegetables a day (86%). Almost all residents reported they had recycled at home and conserved water; these participation rates were higher than those in communities across the nation. Clovis residents reported the lowest rates of participation for contacting Clovis elected officials, attending a local public meeting, using public transportation instead of driving and campaigning for an issue, cause or candidate. Fewer residents in Clovis reported that they had used public transportation, worked within City limits, used Clovis recreation centers, used Clovis public libraries, volunteered or attended a local public meeting than residents in comparison communities. Fewer Clovis residents were under housing cost stress when compared to other communities across the nation.

In 2015, rates of Participation tended to be similar to 2013; however, fewer residents reported using Clovis' public libraries or attending a local public meeting, while more citizens reported voting in local elections in 2015 than in 2013.

Special Topics

The City of Clovis included four questions of special interest on The NCS. The first question asked residents for their opinions about the importance of various areas for the City to invest in for the future. Nearly all residents indicated that public safety and street repair and maintenance would be essential or very important. About 8 in 10 citizens also reported that economic development, land use planning and parks/trails should be a focus. The area rated as the least important was public transportation, but this area was still a priority for about two-thirds of participants.

Figure 4: City Priorities

Please indicate how important, if at all, it is for the City of Clovis to invest in the following:

The National Citizen Survey™

The second question inquired about the residents' employment location. Over 4 in 10 indicated that they worked in Fresno, while only 3-18% of citizens indicated they worked inside Clovis city limits, either in or outside their homes.

Figure 5: Resident Employment Location

If you are employed for pay, which of the following best describes where you work?

The survey gauged the types of businesses that residents felt the City should be attracting. A majority of residents indicated that each of the types of businesses was essential or very important to attract, technology was rated as the most important kind of business to attract (82% essential or very important) and industrial was identified as the least important (58%).

Figure 6: Importance of Attracting Certain Businesses to the City

Please indicate how important, if at all, it is for the City of Clovis to work on attracting the following types of businesses to Clovis:

The National Citizen Survey™

Finally, the City of Clovis asked survey participants to report their shopping habits. Residents indicated that they shop in the City the most frequently, with 17% reporting that they shop in Clovis 100% of the time. Only 3-5% of citizens indicated that they do all of their shopping in Fresno or on the internet.

Figure 7: Resident Shopping Habits

Excluding groceries and gas, please indicate what percentage of the time, if any, do you shop...(total must equal 100%):

Conclusions

Clovis residents continue to enjoy a high quality of life.

A high number of survey respondents gave positive ratings to the overall quality of life in Clovis (90% excellent or good) and the City as a place to live (93%). About 9 in 10 gave high ratings to the overall image of the City, a rating that increased from 2013 to 2015, and Clovis as a place to raise children; these ratings were higher than ratings in comparison communities. Not only did residents appreciate living in Clovis, they also rated the sense of community positively, over three-quarters gave excellent or good ratings, this rating was also higher than both sets of benchmark comparisons. Overall, at least 9 in 10 citizens would recommend living in Clovis and planned to stay for the next five years.

Participation in conservation is high, but Community Engagement in other areas could be improved.

In general, measures for Community Engagement in the pillars of Community Characteristics and Governance were positively rated by a strong majority of residents and received ratings similar to comparison communities. However, ratings in the pillar of Participation were mixed. Nearly all residents indicated that they had participated in recycling and conserving water, levels that were higher than communities across the U.S., and 8 in 10 or more indicated that they had talked to or visited with neighbors, done a favor for a neighbor, read or watched the local news or voted in local elections (a rate that increased over time). On the other hand, only about 1 in 10 had attended a local public meeting and 45% reported that they had used Clovis public libraries in the last year, rates that decreased from 2013 and were lower than the national benchmark. Additionally, only about one-quarter had volunteered their time, a rating that was lower than national jurisdictions, as well as Western communities with similar populations and average annual income levels.

Residents favor focusing on Safety and Economy.

Both Safety and Economy were rated as the most important priorities for the community to focus on in the coming years. Clovis residents tended to give favorable ratings to both of these aspects of community livability.

Overall, at least 9 in 10 residents gave excellent or good ratings to the overall feeling of safety in the city, and about 9 in 10 reported that they felt safe their neighborhoods and in Clovis' downtown/commercial area. Participants also rated safety services positively, particularly police and crime prevention, which were rated higher than other communities, and almost all residents rated fire and ambulance/EMS services as excellent or good. Furthermore, over 8 in 10 respondents reported that they had not been the victim of a crime in the last 12 months. In a special interest question, 96% of residents indicated that public safety was the most essential or very important priority for the City to invest in for the future.

Measures of Economy were also highly rated by Clovis citizens. Residents were especially appreciative of the overall economic health, vibrancy of the downtown/commercial area, shopping opportunities, employment opportunities, Clovis as a place to work and economic development services; all of these ratings were higher than communities across the nation. While ratings for employment opportunities increased from 2013 to 2015, only 27% of participants reported that they worked in Clovis, a level lower than comparison communities; therefore, this could be a possible area for improvement. When asked about investment priorities, economic development was deemed essential or very important by almost 9 in 10 respondents. In another custom question, participants identified technology businesses to be the most important type of business for the City to attract in the future.

Summary

The National Citizen Survey™ (The NCS™) is a collaborative effort between National Research Center, Inc. (NRC) and the International City/County Management Association (ICMA). The survey and its administration are standardized to assure high quality research methods and directly comparable results across The NCS communities. The NCS captures residents' opinions within the three pillars of a community (Community Characteristics, Governance and Participation) across eight central facets of community (Safety, Mobility, Natural Environment, Built Environment, Economy, Recreation and Wellness, Education and Enrichment and Community Engagement). This report discusses trends over time, comparing the 2015 ratings for the City of Clovis to its previous survey results in 2013. Additional reports and technical appendices are available under separate cover.

Trend data for Clovis represent important comparison data and should be examined for improvements or declines. Deviations from stable trends over time, especially, represent opportunities for understanding how local policies, programs or public information may have affected residents' opinions.

Meaningful differences between survey years have been noted within the following tables as being "higher" or "lower" if the differences are greater than eight percentage points between the 2013 and 2015 surveys, otherwise the comparison between 2013 and 2015 are noted as being "similar." Additionally, benchmark comparisons for all survey years are presented for reference. Changes in the benchmark comparison over time can be impacted by various trends, including varying survey cycles for the individual communities that comprise the benchmarks, regional and national economic or other events, as well as emerging survey methodologies.

Overall, ratings in Clovis for 2015 generally remained stable. Of the 89 items for which comparisons were available, 71 items were rated similarly in 2013 and 2015, two items showed a decrease in ratings and 16 showed an increase in ratings. Notable trends over time included the following:

- A large number of increases in ratings were seen in the pillar of Community Characteristics; 11 of the 16 total increases were in this pillar. Ratings increased from 2013 to 2015 for traffic flow, ease of walking, availability of paths and walking trails, overall natural environment, employment opportunities, recreational opportunities, availability of preventative health care services, opportunities to attend cultural/arts/music activities, availability of quality of child care/preschool, opportunities to attend religious or spiritual events and activities and the overall image of the City of Clovis.
- Ratings increased for four aspects within the pillar of Governance. Clovis residents gave higher ratings to street repair, land use, planning and zoning, recreation programs and welcoming citizen involvement in 2015 than in 2013.
- More Clovis residents reported that they had voted in a local election in 2015 than in 2013. Fewer respondents reported that they had used Clovis public libraries and fewer residents reported that they had attended a local public meeting in 2015 compared to 2013.

Summary

The National Citizen Survey™ (The NCS™) is a collaborative effort between National Research Center, Inc. (NRC) and the International City/County Management Association (ICMA). The survey and its administration are standardized to assure high quality research methods and directly comparable results across The NCS communities. The NCS captures residents' opinions within the three pillars of a community (Community Characteristics, Governance and Participation) across eight central facets of community (Safety, Mobility, Natural Environment, Built Environment, Economy, Recreation and Wellness, Education and Enrichment and Community Engagement). This report summarizes Clovis' performance in the eight facets of community livability with the "General" rating as a summary of results from the overarching questions not shown within any of the eight facets. The "Overall" represents the community pillar in its entirety (the eight facets and general).

By summarizing resident ratings across the eight facets and three pillars of a livable community, a picture of Clovis' community livability emerges. Below, the color of each community facet summarizes how residents rated each of the pillars that support it – Community Characteristics, Governance and Participation. When most ratings were higher than the benchmark, the color is the darkest shade; when most ratings were lower than the benchmark, the color is the lightest shade. A mix of ratings (higher and lower than the benchmark) results in a color between the extremes.

Overall, ratings for the dimensions of community livability were strong and similar to or higher than communities across the nation. The aspects of Economy within the pillars of Community Characteristics and Governance were rated exceptionally high. The facets of Mobility and Education and Enrichment within Community Characteristics, as well as Community Engagement in the pillar of Governance and Natural Environment in the pillar of Participation were also rated highly and tended to be higher than the benchmarks. This information can be helpful in identifying the areas that merit more attention.

Figure 1: Dashboard Summary

Do you consider a cell phone or landline your primary telephone number?	Percent	Number
Cell	64%	N=169
Land line	16%	N=42
Both	20%	N=53
Total	100%	N=264

Appendix B: Benchmark Comparisons

Comparison Data

NRC's database of comparative resident opinion is comprised of resident perspectives gathered in surveys from over 500 communities whose residents evaluated the same kinds of topics on The National Citizen Survey™. The comparison evaluations are from the most recent survey completed in each community; most communities conduct surveys every year or in alternating years. NRC adds the latest results quickly upon survey completion, keeping the benchmark data fresh and relevant. The communities in the database represent a wide geographic and population range. The City of Clovis chose to have comparisons made to the entire database and a subset of similar jurisdictions from the database (jurisdictions located in the West, with populations of 60,000-130,000 and an average annual household income of less than \$85,000).

Interpreting the Results

Ratings are compared when there are at least five communities in which a similar question was asked. Where comparisons are available, four columns are provided in the table. The first column is Clovis' "percent positive." The percent positive is the combination of the top two most positive response options (i.e., "excellent" and "good," "very safe" and "somewhat safe," "essential" and "very important," etc.), or, in the case of resident behaviors/participation, the percent positive represents the proportion of respondents indicating "yes" or participating in an activity at least once a month. The second column is the rank assigned to Clovis' rating among communities where a similar question was asked. The third column is the number of communities that asked a similar question. The final column shows the comparison of Clovis' rating to the benchmark.

In that final column, Clovis' results are noted as being "higher" than the benchmark, "lower" than the benchmark or "similar" to the benchmark, meaning that the average rating given by Clovis residents is statistically similar to or different (greater or lesser) than the benchmark. More extreme differences are noted as "much higher" or "much lower."

Benchmark Database Characteristics	
Region	Percent
New England	3%
Middle Atlantic	5%
East North Central	15%
West North Central	13%
South Atlantic	22%
East South Central	3%
West South Central	7%
Mountain	16%
Pacific	16%
Population	Percent
Less than 10,000	10%
10,000 to 24,999	22%
25,000 to 49,999	23%
50,000 to 99,999	22%
100,000 or more	23%

Western Communities with Population 60-130K and an Annual Income Less than \$85,000 Benchmark Comparisons

Table 75: Community Characteristics General

	Percent positive	Rank	Number of communities in comparison	Comparison to benchmark
The overall quality of life in Clovis	90%	6	24	Similar
Overall image or reputation of Clovis	91%	2	14	Much higher
Clovis as a place to live	93%	2	19	Higher
Your neighborhood as a place to live	83%	5	14	Similar
Clovis as a place to raise children	92%	3	16	Higher
Clovis as a place to retire	76%	4	16	Higher
Overall appearance of Clovis	81%	4	14	Higher

The National Citizen Survey™

Table 76: Community Characteristics by Facet

		Percent positive	Rank	Number of communities in comparison	Comparison to benchmark
Safety	Overall feeling of safety in Clovis	90%	4	12	Higher
	In your neighborhood during the day	92%	6	16	Similar
	In Clovis' downtown/commercial area during the day	96%	2	15	Higher
Mobility	Overall ease of getting to the places you usually have to visit	83%	2	7	Higher
	Availability of paths and walking trails	85%	2	15	Higher
	Ease of walking in Clovis	83%	2	13	Higher
	Ease of travel by bicycle in Clovis	78%	1	13	Higher
	Ease of travel by public transportation in Clovis	54%	2	7	Similar
	Ease of travel by car in Clovis	79%	2	13	Higher
	Ease of public parking	68%	NA	NA	NA
	Traffic flow on major streets	67%	2	18	Higher
Natural Environment	Quality of overall natural environment in Clovis	79%	4	12	Similar
	Cleanliness of Clovis	79%	4	13	Higher
	Air quality	28%	12	12	Much lower
Built Environment	Overall "built environment" of Clovis (including overall design, buildings, parks and transportation systems)	81%	1	6	Much higher
	Overall quality of new development in Clovis	76%	1	13	Higher
	Availability of affordable quality housing	61%	4	14	Similar
	Variety of housing options	75%	3	12	Higher
	Public places where people want to spend time	71%	1	6	Much higher
Economy	Overall economic health of Clovis	81%	1	6	Much higher
	Vibrant downtown/commercial area	72%	1	6	Much higher
	Overall quality of business and service establishments in Clovis	75%	2	12	Higher
	Cost of living in Clovis	57%	2	6	Similar
	Shopping opportunities	72%	4	14	Higher
	Employment opportunities	56%	2	16	Higher
	Clovis as a place to visit	68%	1	7	Much higher
	Clovis as a place to work	81%	2	18	Higher
Recreation and Wellness	Health and wellness opportunities in Clovis	78%	1	6	Much higher
	Availability of affordable quality mental health care	61%	1	5	Higher
	Availability of preventive health services	73%	2	11	Higher
	Availability of affordable quality health care	72%	2	12	Higher
	Availability of affordable quality food	77%	2	10	Similar
	Recreational opportunities	72%	5	13	Similar
	Fitness opportunities (including exercise classes and paths or trails, etc.)	81%	1	6	Higher
Education and Enrichment	Overall opportunities for education and enrichment	87%	1	6	Much higher
	Opportunities to participate in religious or spiritual events and activities	85%	1	8	Similar
	Opportunities to attend cultural/arts/music activities	63%	5	15	Similar
	Adult educational opportunities	85%	1	6	Much higher
	K-12 education	89%	1	13	Much higher
	Availability of affordable quality child care/preschool	69%	1	11	Higher
Community Engagement	Opportunities to participate in social events and activities	74%	2	12	Higher
	Neighborliness of Clovis	61%	2	7	Similar
	Openness and acceptance of the community toward people of diverse backgrounds	58%	6	12	Similar

The National Citizen Survey™

		Percent positive	Rank	Number of communities in comparison	Comparison to benchmark
	Opportunities to participate in community matters	72%	1	11	Higher
	Opportunities to volunteer	76%	3	11	Similar

Table 77: Governance General

	Percent positive	Rank	Number of communities in comparison	Comparison to benchmark
Services provided by the City of Clovis	84%	4	23	Higher
Overall customer service by Clovis employees (police, receptionists, planners, etc.)	77%	7	16	Similar
Value of services for the taxes paid to Clovis	63%	3	15	Higher
Overall direction that Clovis is taking	72%	2	16	Higher
Job Clovis government does at welcoming citizen involvement	69%	1	16	Higher

Goodyear city, AZ	65,275	Tracy city, CA	82,922
Greeley city, CO.....	92,889	Walnut Creek city, CA.....	64,173
Las Cruces city, NM.....	97,618	Westminster city, CO.....	106,114
Longmont city, CO	86,270	Yakima city, WA.....	91,067

Appendix C: Detailed Survey Methods

The National Citizen Survey (The NCS™), conducted by National Research Center, Inc., was developed to provide communities an accurate, affordable and easy way to assess and interpret resident opinion about important local topics. Standardization of common questions and survey methods provide the rigor to assure valid results, and each community has enough flexibility to construct a customized version of The NCS.

Results offer insight into residents' perspectives about the community as a whole, including local amenities, services, public trust, resident participation and other aspects of the community in order to support budgeting, land use and strategic planning and communication with residents. Resident demographic characteristics permit comparison to the Census as well as comparison of results for different subgroups of residents. The City of Clovis funded this research. Please contact Andrew Haussler of the Clovis City Manager's office at andrewh@ci.clovis.ca if you have any questions about the survey.

Survey Validity

The question of survey validity has two parts: 1) how can a community be confident that the results from those who completed the questionnaire are representative of the results that would have been obtained had the survey been administered to the entire population? and 2) how closely do the perspectives recorded on the survey reflect what residents really believe or do?

To answer the first question, the best survey research practices were used for the resources spent to ensure that the results from the survey respondents reflect the opinions of residents in the entire community. These practices include:

- Using a mail-out/mail-back methodology, which typically gets a higher response rate than phone for the same dollars spent. A higher response rate lessens the worry that those who did not respond are different than those who did respond.
- Selecting households at random within the community to receive the survey to ensure that the households selected to receive the survey are representative of the larger community.
- Over-sampling multi-family housing units to improve response from hard-to-reach, lower income or younger apartment dwellers.
- Selecting the respondent within the household using an unbiased sampling procedure; in this case, the "birthday method." The cover letter included an instruction requesting that the respondent in the household be the adult (18 years old or older) who most recently had a birthday, irrespective of year of birth.
- Contacting potential respondents three times to encourage response from people who may have different opinions or habits than those who would respond with only a single prompt.
- Inviting response in a compelling manner (using appropriate letterhead/logos and a signature of a visible leader) to appeal to recipients' sense of civic responsibility.
- Providing a pre-addressed, postage-paid return envelope.
- Offering the survey in Spanish or other language when requested by a given community.
- Weighting the results to reflect the demographics of the population.

The answer to the second question about how closely the perspectives recorded on the survey reflect what residents really believe or do is more complex. Resident responses to surveys are influenced by a variety of factors. For questions about service quality, residents' expectations for service quality play a role as well as the "objective" quality of the service provided, the way the resident perceives the entire community (that is, the context in which the service is provided), the scale on which the resident is asked to record his or her opinion and, of course, the opinion, itself, that a resident holds about the service. Similarly a resident's report of certain behaviors is colored by what he or she believes is the socially desirable response (e.g., reporting tolerant behaviors toward "oppressed groups," likelihood of voting for a tax increase for services to poor people, use of alternative modes of travel to work besides the single occupancy vehicle), his or her memory of the actual behavior (if it is not a question speculating about future actions, like a vote), his or her confidence that he or she can be honest without suffering any negative consequences (thus the need for anonymity) as well as the actual behavior itself.

How closely survey results come to recording the way a person really feels or behaves often is measured by the coincidence of reported behavior with observed current behavior (e.g., driving habits), reported intentions to behave with observed future behavior (e.g., voting choices) or reported opinions about current community quality

with objective characteristics of the community (e.g., feelings of safety correlated with rates of crime). There is a body of scientific literature that has investigated the relationship between reported behaviors and actual behaviors. Well-conducted surveys, by and large, do capture true respondent behaviors or intentions to act with great accuracy. Predictions of voting outcomes tend to be quite accurate using survey research, as do reported behaviors that are not about highly sensitive issues (e.g., family abuse or other illegal or morally sanctioned activities). For self-reports about highly sensitive issues, statistical adjustments can be made to correct for the respondents' tendency to report what they think the "correct" response should be.

Research on the correlation of resident opinion about service quality and "objective" ratings of service quality vary, with some showing stronger relationships than others. NRC's own research has demonstrated that residents who report the lowest ratings of street repair live in communities with objectively worse street conditions than those who report high ratings of street repair (based on road quality, delay in street repair, number of road repair employees). Similarly, the lowest rated fire services appear to be "objectively" worse than the highest rated fire services (expenditures per capita, response time, "professional" status of firefighters, breadth of services and training provided). Resident opinion commonly reflects objective performance data but is an important measure on its own. NRC principals have written, "If you collect trash three times a day but residents think that your trash haul is lousy, you still have a problem."

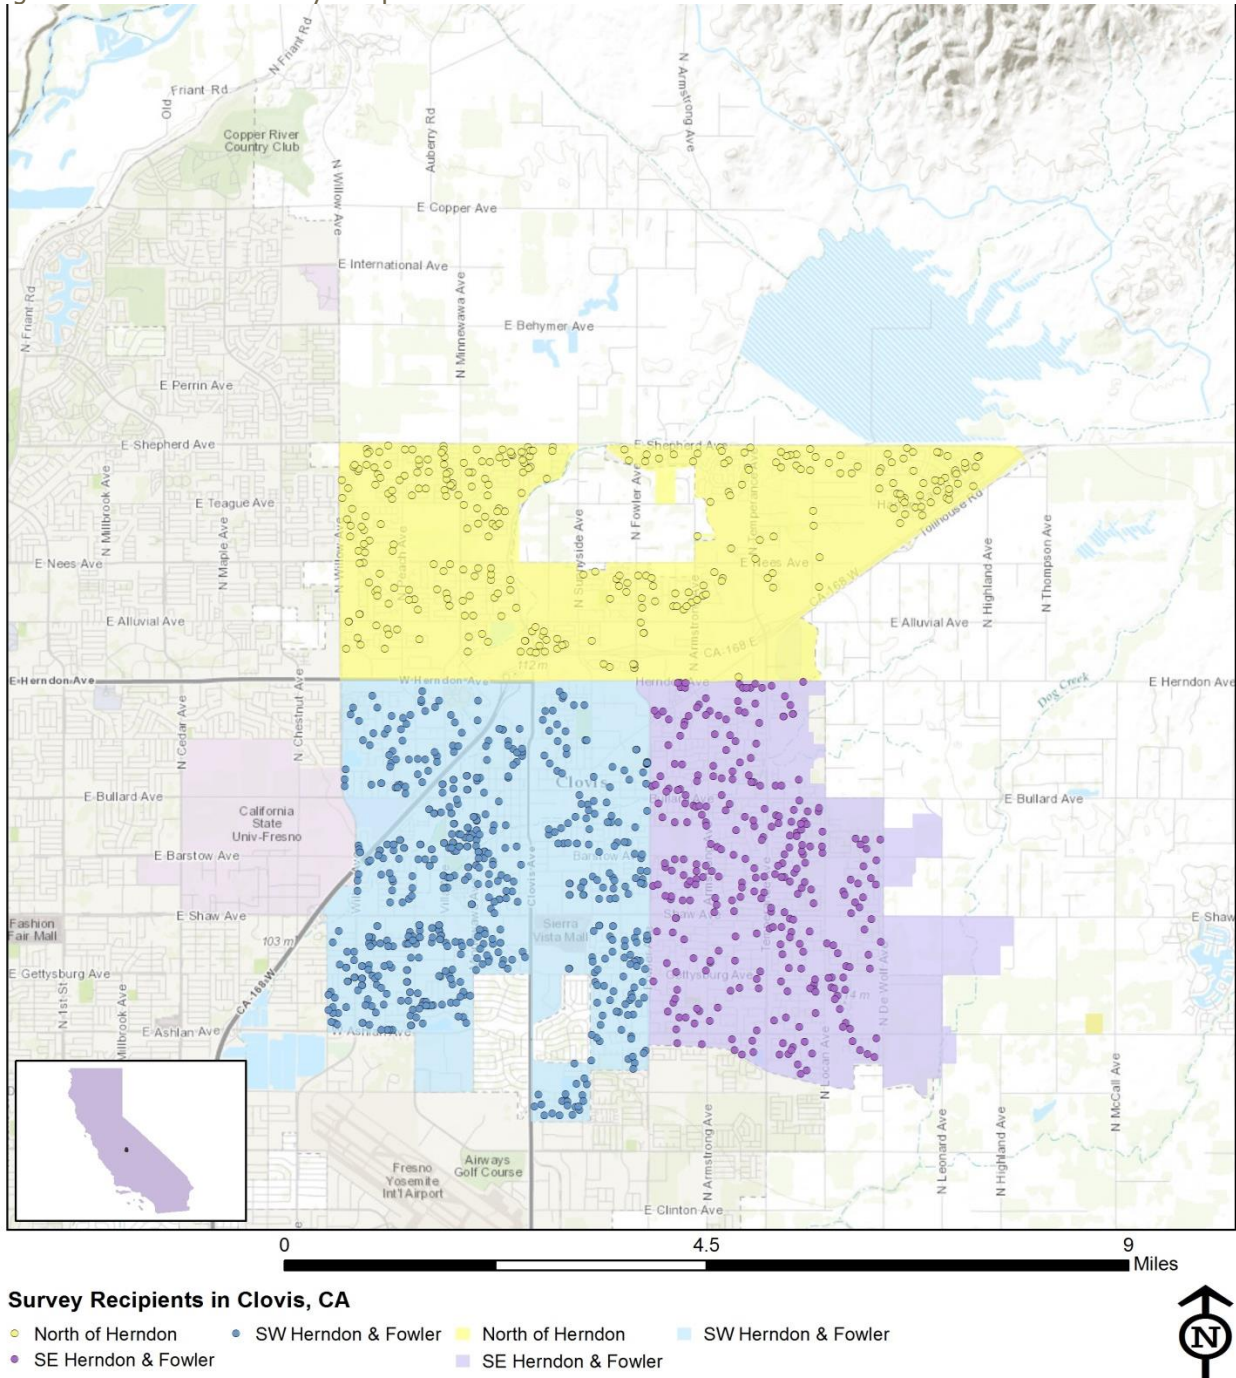

Survey Sampling

"Sampling" refers to the method by which households were chosen to receive the survey. All households within the City of Clovis were eligible to participate in the survey. A list of all households within the zip codes serving Clovis was purchased based on updated listings from the United States Postal Service. Since some of the zip codes that serve the City of Clovis households may also serve addresses that lie outside of the community, the exact geographic location of each housing unit was compared to community boundaries using the most current municipal boundary file (updated on a quarterly basis) and addresses located outside of the City of Clovis boundaries were removed from consideration. Each address identified as being within City boundaries was further identified as being within one of three areas: North of Herndon, SE Herndon and Fowler and SW Herndon and Fowler.

To choose the 1,400 survey recipients, a systematic sampling method was applied to the list of households previously screened for geographic location. Systematic sampling is a procedure whereby a complete list of all possible households is culled, selecting every *Nth* one, giving each eligible household a known probability of selection, until the appropriate number of households is selected. Multi-family housing units were over sampled as residents of this type of housing typically respond at lower rates to surveys than do those in single-family housing units. Figure 1 displays a map of the households selected to receive the survey. In general, because of the random sampling techniques used, the displayed sampling density will closely mirror the overall housing unit density (which may be different from the population density). While the theory of probability assumes no bias in selection, there may be some minor variations in practice (meaning, an area with only 15% of the housing units might be sampled at an actual rate that is slightly above or below that).

An individual within each household was selected using the birthday method. The birthday method selects a person within the household by asking the "person whose birthday has most recently passed" to complete the questionnaire. The underlying assumption in this method is that day of birth has no relationship to the way people respond to surveys. This instruction was contained in the cover letter accompanying the questionnaire.

Figure 1: Location of Survey Recipients

Survey Administration and Response

Selected households received three mailings, one week apart, beginning on September 4th, 2015. The first mailing was a prenotification postcard announcing the upcoming survey. The next mailing contained a letter from the City Manager inviting the household to participate, a questionnaire and a postage-paid return envelope. The final mailing contained a reminder letter, another survey and a postage-paid return envelope. The second cover letter asked those who had not completed the survey to do so and those who had already done so to refrain from turning in another survey. Both cover letters contained paragraphs in Spanish; respondents could opt to take the survey online as well in their language of preference. Completed surveys were collected over the following seven weeks.

About 3% of the 1,400 surveys mailed were returned because the housing unit was vacant or the postal service was unable to deliver the survey as addressed. Of the remaining 1,365 households that received the survey, 267

The National Citizen Survey™

completed the survey, providing an overall response rate of 20%. Of the 267 completed surveys, eight were completed online; all eight online surveys were completed in English. Additionally, responses were tracked by geographic area; response rates by area ranged from 16% to 25%.

Table 81: Survey Response Rates by Area

	Number mailed	Undeliverable	Eligible	Returned	Response rate
North of Herndon	318	2	316	72	23%
SE Herndon and Fowler	307	4	303	75	25%
SW Herndon and Fowler	775	29	746	120	16%
Overall	1,400	35	1,365	267	20%

Confidence Intervals

It is customary to describe the precision of estimates made from surveys by a “level of confidence” and accompanying “confidence interval” (or margin of error). A traditional level of confidence, and the one used here, is 95%. The 95% confidence interval can be any size and quantifies the sampling error or imprecision of the survey results because some residents’ opinions are relied on to estimate all residents’ opinions.¹

The margin of error for the City of Clovis survey is no greater than plus or minus six percentage points around any given percent reported for the entire sample (267 completed surveys).

For subgroups of responses, the margin of error increases because the sample size for the subgroup is smaller. For subgroups of approximately 100 respondents, the margin of error is plus or minus 10 percentage points.

Survey Processing (Data Entry)

Upon receipt, completed surveys were assigned a unique identification number. Additionally, each survey was reviewed and “cleaned” as necessary. For example, a question may have asked a respondent to pick two items out of a list of five, but the respondent checked three; in this case, NRC would use protocols to randomly choose two of the three selected items for inclusion in the dataset.

All surveys then were entered twice into an electronic dataset; any discrepancies were resolved in comparison to the original survey form. Range checks as well as other forms of quality control were also performed.

Survey Data Weighting

The demographic characteristics of the survey sample were compared to those found in the 2010 Census and American Community Survey estimates for adults in the City of Clovis. The primary objective of weighting survey data is to make the survey sample reflective of the larger population of the community. The characteristics used for weighting were housing tenure (rent or own), race, ethnicity, sex and age. The results of the weighting scheme are presented in the following table.

¹ A 95% confidence interval indicates that for every 100 random samples of this many residents, 95 of the confidence intervals created will include the “true” population response. This theory is applied in practice to mean that the “true” perspective of the target population lies within the confidence interval created for a single survey. For example, if 75% of residents rate a service as “excellent” or “good,” then the 4% margin of error (for the 95% confidence interval) indicates that the range of likely responses for the entire community is between 71% and 79%. This source of uncertainty is called sampling error. In addition to sampling error, other sources of error may affect any survey, including the non-response of residents with opinions different from survey responders. Though standardized on The NCS, on other surveys, differences in question wording, order, translation and data entry, as examples, can lead to somewhat varying results.

Table 82: Clovis, CA 2015 Weighting Table

Characteristic	Population Norm	Unweighted Data	Weighted Data
Housing			
Rent home	38%	30%	37%
Own home	62%	70%	63%
Detached unit	75%	78%	77%
Attached unit	25%	22%	23%
Race and Ethnicity			
White	74%	74%	74%
Not white	26%	26%	26%
Not Hispanic	77%	83%	77%
Hispanic	23%	17%	23%
Sex and Age			
Female	53%	61%	55%
Male	47%	39%	45%
18-34 years of age	32%	9%	27%
35-54 years of age	38%	27%	38%
55+ years of age	29%	64%	34%
Females 18-34	16%	7%	16%
Females 35-54	20%	17%	21%
Females 55+	16%	37%	18%
Males 18-34	16%	2%	12%
Males 35-54	18%	10%	18%
Males 55+	13%	27%	15%
Area			
North of Herndon	26%	25%	27%
SE Herndon & Fowler	24%	28%	28%
SW Herndon & Fowler	49%	47%	45%

Survey Data Analysis and Reporting

The survey dataset was analyzed using the Statistical Package for the Social Sciences (SPSS). For the most part, the percentages presented in the reports represent the “percent positive.” The percent positive is the combination of the top two most positive response options (i.e., “excellent” and “good,” “very safe” and “somewhat safe,” “essential” and “very important,” etc.), or, in the case of resident behaviors/participation, the percent positive represents the proportion of respondents indicating “yes” or participating in an activity at least once a month.

On many of the questions in the survey respondents may answer “don’t know.” The proportion of respondents giving this reply is shown in the full set of responses included in Appendix A. However, these responses have been removed from the analyses presented in the reports. In other words, the tables and graphs display the responses from respondents who had an opinion about a specific item.

Appendix D: Survey Materials

Dear Clovis Resident,

Estimado Residente de Clovis,

It won't take much of your time to make a big difference!

iNo le tomará mucho de su tiempo para marcar una gran diferencia!

Your household has been randomly selected to participate in a survey about your community. Your survey will arrive in a few days.

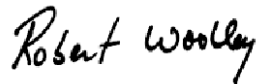

Su hogar ha sido elegido al azar para participar en una encuesta sobre su comunidad. Su encuesta le llegará dentro de pocos días.

Thank you for helping create a better City!

iGracias por ayudar a crear una Ciudad mejor!

Sincerely,

Atentamente,

Robert Woolley
City Manager/Administrador de la Ciudad

CITY OF CLOVIS

CITY HALL • 1033 FIFTH STREET • CLOVIS, CA 93612

September 2015

Dear City of Clovis Resident:

Please help us shape the future of Clovis! You have been selected at random to participate in the 2015 Clovis Citizen Survey.

Please take a few minutes to fill out the enclosed survey. Your participation in this survey is very important – especially since your household is one of only a small number of households being surveyed. Your feedback will help Clovis make decisions that affect our City.

A few things to remember:

- **Your responses are completely anonymous.**
- In order to hear from a diverse group of residents, the adult 18 years or older in your household who most recently had a birthday should complete this survey.
- **You may return the survey by mail in the enclosed postage-paid envelope, or you can complete the survey online at:**

www.n-r-c.com/survey/clovis2015.htm

If you have any questions about the survey please call 559-324-2060.

Thank you for your time and participation!

Sincerely,

Estimado Residente de la Ciudad de Clovis:

¡Por favor ayúdenos a moldear el futuro de Clovis! Usted ha sido seleccionado al azar para participar en la Encuesta de Ciudadanos de Clovis del 2015.

Por favor tome unos minutos para completar la encuesta adjunta; si usted preferiría completar la encuesta en español, por favor siga las instrucciones abajo para acceder a la encuesta en español por medio de la red. Su participación en esta encuesta es muy importante – especialmente porque su hogar es uno de solamente un número pequeño de hogares que se están encuestando. Sus observaciones le ayudarán a Clovis tomar decisiones que afectarán a nuestra ciudad.

Algunas cosas para recordar:

- **Sus respuestas son completamente anónimas.**
- Para poder escuchar a un grupo diverso de residentes, el adulto de 18 años o más en su hogar que haya celebrado su cumpleaños más recientemente debe completar esta encuesta.
- **Puede devolver la encuesta por correo en el sobre pre-pagado adjunto, o puede completar la encuesta en línea en español en:**

www.n-r-c.com/survey/clovis2015.htm

Para la versión en español haga clic en “Español” en la esquina superior a mano derecha.

Si tiene alguna pregunta sobre la encuesta por favor llame al 559-324-2060.

¡Gracias por su tiempo y participación!

Atentamente,

Robert Woolley
City Manager/Administrador de la Ciudad

CITY OF CLOVIS

CITY HALL • 1033 FIFTH STREET • CLOVIS, CA 93612

September 2015

Dear City of Clovis Resident:

Here's a second chance if you haven't already responded to the 2015 Clovis Citizen Survey! **(If you completed it and sent it back, we thank you for your time and ask you to recycle this survey. Please do not respond twice.)**

Please help us shape the future of Clovis! You have been selected at random to participate in the 2015 Clovis Citizen Survey.

Please take a few minutes to fill out the enclosed survey. Your participation in this survey is very important – especially since your household is one of only a small number of households being surveyed. Your feedback will help Clovis make decisions that affect our City.

A few things to remember:

- **Your responses are completely anonymous.**
- In order to hear from a diverse group of residents, the adult 18 years or older in your household who most recently had a birthday should complete this survey.
- **You may return the survey by mail in the enclosed postage-paid envelope, or you can complete the survey online at:**

www.n-r-c.com/survey/clovis2015.htm

If you have any questions about the survey please call 559-324-2060.

Thank you for your time and participation!

Sincerely,

Estimado Residente de la Ciudad de Clovis:

¡Aquí tiene una segunda oportunidad si usted aún no ha respondido a la Encuesta de Ciudadanos de Clovis del 2015! **(Si usted la completó y la devolvió, le damos las gracias por su tiempo y le pedimos que recicle esta encuesta. Por favor no responda dos veces.)**

¡Por favor ayúdenos a moldear el futuro de Clovis! Usted ha sido seleccionado al azar para participar en la Encuesta de Ciudadanos de Clovis del 2015.

Por favor tome unos minutos para completar la encuesta adjunta; si usted preferiría completar la encuesta en español, por favor siga las instrucciones abajo para acceder a la encuesta en español por medio de la red. Su participación en esta encuesta es muy importante – especialmente porque su hogar es uno de solamente un número pequeño de hogares que se están encuestando. Sus observaciones le ayudarán a Clovis tomar decisiones que afectarán a nuestra ciudad.

Algunas cosas para recordar:

- **Sus respuestas son completamente anónimas.**
- Para poder escuchar a un grupo diverso de residentes, el adulto de 18 años o más en su hogar que haya celebrado su cumpleaños más recientemente debe completar esta encuesta.
- **Puede devolver la encuesta por correo en el sobre pre-pagado adjunto, o puede completar la encuesta en línea en español en:**

www.n-r-c.com/survey/clovis2015.htm

Para la versión en español haga clic en “Español” en la esquina superior a mano derecha.

Si tiene alguna pregunta sobre la encuesta por favor llame al 559-324-2060.

¡Gracias por su tiempo y participación!

Atentamente,

Robert Woolley
City Manager/Administrador de la Ciudad

The City of Clovis 2015 Citizen Survey

Please complete this questionnaire if you are the adult (age 18 or older) in the household who most recently had a birthday. The adult's year of birth does not matter. Please select the response (by circling the number or checking the box) that most closely represents your opinion for each question. Your responses are anonymous and will be reported in group form only.

1. Please rate each of the following aspects of quality of life in Clovis:

	<i>Excellent</i>	<i>Good</i>	<i>Fair</i>	<i>Poor</i>	<i>Don't know</i>
Clovis as a place to live	1	2	3	4	5
Your neighborhood as a place to live.....	1	2	3	4	5
Clovis as a place to raise children	1	2	3	4	5
Clovis as a place to work.....	1	2	3	4	5
Clovis as a place to visit	1	2	3	4	5
Clovis as a place to retire	1	2	3	4	5
The overall quality of life in Clovis	1	2	3	4	5

2. Please rate each of the following characteristics as they relate to Clovis as a whole:

	<i>Excellent</i>	<i>Good</i>	<i>Fair</i>	<i>Poor</i>	<i>Don't know</i>
Overall feeling of safety in Clovis.....	1	2	3	4	5
Overall ease of getting to the places you usually have to visit	1	2	3	4	5
Quality of overall natural environment in Clovis	1	2	3	4	5
Overall "built environment" of Clovis (including overall design, buildings, parks and transportation systems)	1	2	3	4	5
Health and wellness opportunities in Clovis	1	2	3	4	5
Overall opportunities for education and enrichment.....	1	2	3	4	5
Overall economic health of Clovis	1	2	3	4	5
Sense of community.....	1	2	3	4	5
Overall image or reputation of Clovis	1	2	3	4	5

3. Please indicate how likely or unlikely you are to do each of the following:

	<i>Very likely</i>	<i>Somewhat likely</i>	<i>Somewhat unlikely</i>	<i>Very unlikely</i>	<i>Don't know</i>
Recommend living in Clovis to someone who asks	1	2	3	4	5
Remain in Clovis for the next five years	1	2	3	4	5

4. Please rate how safe or unsafe you feel:

	<i>Very safe</i>	<i>Somewhat safe</i>	<i>Neither safe nor unsafe</i>	<i>Somewhat unsafe</i>	<i>Very unsafe</i>	<i>Don't know</i>
In your neighborhood during the day.....	1	2	3	4	5	6
In Clovis' downtown/commercial area during the day	1	2	3	4	5	6

5. Please rate each of the following characteristics as they relate to Clovis as a whole:

	<i>Excellent</i>	<i>Good</i>	<i>Fair</i>	<i>Poor</i>	<i>Don't know</i>
Traffic flow on major streets	1	2	3	4	5
Ease of public parking.....	1	2	3	4	5
Ease of travel by car in Clovis.....	1	2	3	4	5
Ease of travel by public transportation in Clovis	1	2	3	4	5
Ease of travel by bicycle in Clovis.....	1	2	3	4	5
Ease of walking in Clovis	1	2	3	4	5
Availability of paths and walking trails	1	2	3	4	5
Air quality	1	2	3	4	5
Cleanliness of Clovis	1	2	3	4	5
Overall appearance of Clovis.....	1	2	3	4	5
Public places where people want to spend time	1	2	3	4	5
Variety of housing options	1	2	3	4	5
Availability of affordable quality housing	1	2	3	4	5
Fitness opportunities (including exercise classes and paths or trails, etc.)	1	2	3	4	5
Recreational opportunities.....	1	2	3	4	5
Availability of affordable quality food.....	1	2	3	4	5
Availability of affordable quality health care	1	2	3	4	5
Availability of preventive health services	1	2	3	4	5
Availability of affordable quality mental health care	1	2	3	4	5

6. Please rate each of the following characteristics as they relate to Clovis as a whole:

	<i>Excellent</i>	<i>Good</i>	<i>Fair</i>	<i>Poor</i>	<i>Don't know</i>
Availability of affordable quality child care/preschool	1	2	3	4	5
K-12 education	1	2	3	4	5
Adult educational opportunities.....	1	2	3	4	5
Opportunities to attend cultural/arts/music activities	1	2	3	4	5
Opportunities to participate in religious or spiritual events and activities	1	2	3	4	5
Employment opportunities	1	2	3	4	5
Shopping opportunities.....	1	2	3	4	5
Cost of living in Clovis	1	2	3	4	5

Technology	1	2	3	4	5
Agricultural based businesses.....	1	2	3	4	5

17. Excluding groceries and gas, please indicate what percentage of the time, if any, do you shop...(total must equal 100%):

	<i>100% of the time</i>	<i>75% of the time</i>	<i>50% of the time</i>	<i>25% of the time</i>	<i>0% of the time</i>
In the City of Clovis.....	1	2	3	4	5
In the City of Fresno	1	2	3	4	5
On the Internet.....	1	2	3	4	5
Other	1	2	3	4	5

The City of Clovis 2015 Citizen Survey

Our last questions are about you and your household. Again, all of your responses to this survey are completely anonymous and will be reported in group form only.

D1. How often, if at all, do you do each of the following, considering all of the times you could?

	<i>Never</i>	<i>Rarely</i>	<i>Sometimes</i>	<i>Usually</i>	<i>Always</i>
Recycle at home	1	2	3	4	5
Purchase goods or services from a business located in Clovis	1	2	3	4	5
Eat at least 5 portions of fruits and vegetables a day	1	2	3	4	5
Participate in moderate or vigorous physical activity	1	2	3	4	5
Read or watch local news (via television, paper, computer, etc.)	1	2	3	4	5
Vote in local elections.....	1	2	3	4	5

D2. Would you say that in general your health is:

- ☐ Excellent ☐ Very good ☐ Good ☐ Fair ☐ Poor

D3. What impact, if any, do you think the economy will have on your family income in the next 6 months? Do you think the impact will be:

- ☐ Very positive ☐ Somewhat positive ☐ Neutral ☐ Somewhat negative ☐ Very negative

D4. What is your employment status?

- ☐ Working full time for pay
☐ Working part time for pay
☐ Unemployed, looking for paid work
☐ Unemployed, not looking for paid work
☐ Fully retired

D5. Do you work inside the boundaries of Clovis?

- ☐ Yes, outside the home
☐ Yes, from home
☐ No

D6. How many years have you lived in Clovis?

- ☐ Less than 2 years ☐ 11-20 years
☐ 2-5 years ☐ More than 20 years
☐ 6-10 years

D7. Which best describes the building you live in?

- ☐ One family house detached from any other houses
☐ Building with two or more homes (duplex, townhome, apartment or condominium)
☐ Mobile home
☐ Other

D8. Is this house, apartment or mobile home...

- ☐ Rented
☐ Owned

D9. About how much is your monthly housing cost for the place you live (including rent, mortgage payment, property tax, property insurance and homeowners' association (HOA) fees)?

- ☐ Less than \$300 per month
☐ \$300 to \$599 per month
☐ \$600 to \$999 per month
☐ \$1,000 to \$1,499 per month
☐ \$1,500 to \$2,499 per month
☐ \$2,500 or more per month

D10. Do any children 17 or under live in your household?

- ☐ No ☐ Yes

D11. Are you or any other members of your household aged 65 or older?

- ☐ No ☐ Yes

D12. How much do you anticipate your household's total income before taxes will be for the current year? (Please include in your total income money from all sources for all persons living in your household.)

- ☐ Less than \$25,000
☐ \$25,000 to \$49,999
☐ \$50,000 to \$99,999
☐ \$100,000 to \$149,999
☐ \$150,000 or more

Please respond to both questions D13 and D14:

D13. Are you Spanish, Hispanic or Latino?

- ☐ No, not Spanish, Hispanic or Latino
☐ Yes, I consider myself to be Spanish, Hispanic or Latino

D14. What is your race? (Mark one or more races to indicate what race you consider yourself to be.)

- ☐ American Indian or Alaskan Native
☐ Asian, Asian Indian or Pacific Islander
☐ Black or African American
☐ White
☐ Other

D15. In which category is your age?

- ☐ 18-24 years ☐ 55-64 years
☐ 25-34 years ☐ 65-74 years
☐ 35-44 years ☐ 75 years or older
☐ 45-54 years

D16. What is your sex?

- ☐ Female ☐ Male

D17. Do you consider a cell phone or land line your primary telephone number?

- ☐ Cell ☐ Land line ☐ Both

Summary

The National Citizen Survey™ (The NCS™) is a collaborative effort between National Research Center, Inc. (NRC) and the International City/County Management Association (ICMA). The survey and its administration are standardized to assure high quality research methods and directly comparable results across The NCS communities. This report discusses differences in opinion of survey respondents by age, household income, race/ethnicity and sex.

Responses in the following tables show only the proportion of respondents giving a certain answer; for example, the percent of respondents who rated the quality of life as “excellent” or “good,” or the percent of respondents who attended a public meeting more than once a month. ANOVA and chi-square tests of significance were applied to these comparisons of survey questions. A “p-value” of 0.05 or less indicates that there is less than a 5% probability that differences observed between subgroups are due to chance; or in other words, a greater than 95% probability that the differences observed are “real.” Where differences were statistically significant, they have been shaded grey.

The margin of error for this report is generally no greater than plus or minus six percentage points around any given percent reported for the entire sample (267 completed surveys). For subgroups of responses, the margin of error increases because the sample size for the subgroup is smaller. For subgroups of approximately 100 respondents, the margin of error is plus or minus 10 percentage points.

Notable differences between demographic subgroups included the following:

- Residents who own their own homes or those who make over \$100,000 annually were more likely to positively rate aspects of Recreation and Wellness within the pillar of Community Characteristics, including fitness opportunities and availability of affordable health care and preventative health services.
- Younger Clovis residents tended to give higher ratings to Clovis as a place to work, employment opportunities and the cost of living in the City than older residents; however, respondents over the age of 55, as well as citizens who made less than \$50,000 a year, gave more positive scores to Clovis as a place to visit.
- Residents between the ages of 35-54 were less likely to rate the openness and acceptance of the community or the neighborliness of residents as excellent or good than their younger or older counterparts.
- Within general aspects of Governance, Clovis residents who own their own homes or those who have high incomes (\$100,000 or more a year) tended to give higher ratings where differences were present, including welcoming citizen involvement, overall confidence in Clovis government, acting in the best interest of the community, being honest and treating all residents fairly. On the other hand, renters and people with the smallest incomes (less than \$50,000 annually) gave more excellent or good ratings to the Federal and State Governments.
- Aspects of Mobility within the pillar of Governance tended to be the most positively rated by residents who identified as Hispanic and/or another race or younger respondents (under the age of 35).
- Survey respondents who rent their residences were more likely to report having walked or biked and used public transportation instead of driving than those who own their homes.
- Citizens who are 35 and older or those who made at least \$50,000 a year tended to participate in recycling at home and had made efforts to conserve water at higher rates than their counterparts. Residents who were Hispanic and/or another race were more likely to recycle, but less likely to conserve water than white residents.
- Participants who are older (55+) were more likely to rate the overall ease of getting to places they normally have to visit and health and wellness opportunities as essential or very important for the City of Clovis in the next couple of years than their counterparts, while individuals between 35-54 placed more emphasis on the importance of the overall economic health of Clovis than younger or older residents.
- Regarding City priorities, Clovis residents that were younger tended to rate street repair and maintenance, senior services, affordable housing and public transportation as less important than older residents.

The National Citizen Survey™

- Clovis residents that were older or those who made less than \$50,000 tended to place higher importance on attracting manufacturing and industrial business, while younger respondents gave placed a higher importance on professional services and agricultural based businesses.
- Survey participants that were Hispanic or those who made less than \$100,000 a year were more likely to shop in the City of Clovis at least 50% of the time. Younger residents or those who made between \$50-100,000 were more likely to shop on the internet than other residents.

Summary

The National Citizen Survey™ (The NCS™) is a collaborative effort between National Research Center, Inc. (NRC) and the International City/County Management Association (ICMA). The survey and its administration are standardized to assure high quality research methods and directly comparable results across The NCS communities. This report discusses differences in opinion of survey respondents by area: North of Herndon, SE of Herndon and Fowler and SW Herndon and Fowler.

Responses in the following tables show only the proportion of respondents giving a certain answer; for example, the percent of respondents who rated the quality of life as “excellent” or “good,” or the percent of respondents who attended a public meeting more than once a month. ANOVA and chi-square tests of significance were applied to these comparisons of survey questions. A “p-value” of 0.05 or less indicates that there is less than a 5% probability that differences observed between area are due to chance; or in other words, a greater than 95% probability that the differences observed are “real.” Where differences were statistically significant, they have been shaded grey.

The margin of error for this report is generally no greater than plus or minus six percentage points around any given percent reported for the entire sample (267 completed surveys). For each area (North of Herndon, SE of Herndon and Fowler and SW Herndon and Fowler), the margin of error rises to approximately plus or minus 16 percentage points since sample sizes were approximately [72 for North of Herndon, 75 for SE Herndon and Fowler and 120 for SW Herndon and Fowler]. Notable differences between areas included the following:

- Within the pillar of Community Characteristics, residents who lived North of Herndon tended to give more excellent or good ratings to general aspects, such as overall image, their neighborhoods as a place to live and Clovis as a place to raise children while respondents from the area of SW Herndon and Fowler tended to give the least positive ratings. This trend was also true for aspects of Safety (feeling safe in their neighborhoods and in Clovis’ downtown/commercial area during the day), Mobility (ease of public parking and ease of travel by car), Natural Environment (air quality), Economy (overall economic health of Clovis and shopping opportunities), Recreation and Wellness (availability of affordable quality health care and mental health care) and Education and Enrichment (overall opportunities for education and enrichment, availability of affordable quality child care/preschool, K-12 education and opportunities to participate in religious or spiritual events and activities). However, participants who lived in the area of SW Herndon and Fowler gave higher ratings to Clovis as a place to visit than other residents.
- Residents who lived in the SW Herndon and Fowler area were less likely to positively rate the general aspects of Governance than citizens from other areas, but they were more likely to rate the Federal and State Governments as excellent or good.
- Survey participants from the area North of Herndon gave higher ratings to all aspects of Natural Environment, Recreation and Wellness and Community Engagement, as well as most aspects of Mobility, Built Environment and Education and Enrichment within the pillar of Governance when compared to other respondents.
- Individuals who lived North of Herndon gave the most positive ratings to sense of community, while citizens from SW Herndon and Fowler gave the least positive ratings.
- Respondents who lived in the area of SE Herndon and Fowler were least likely to report being the victim of a crime or to report a crime. These individuals were also least likely to have stocked supplies for an emergency.
- Residents from SW Herndon and Fowler reported the highest levels of participation for having walked or biked or used public transportation instead of driving. They were also more likely to have contacted Clovis elected officials compared to other residents. Conversely, these residents were less likely to have visited a neighborhood or City park, reported being in good health, participated in religious or spiritual activities or voted in local elections than citizens from other areas.
- When asked about City priorities, residents from North of Herndon tended to place higher importance on parks/trails than other residents, while participants from SW Herndon and Fowler were more likely to rate senior services, affordable housing and public transportation as essential or very important than their counterparts.

The National Citizen Survey™

Table 1: Community Characteristics - General

Percent rating positively (e.g., excellent/good)	Area			Overall
