- #### Bike N Bus
- All Stageline buses are equipped with bike racks. The bike racks are located on the front of the bus and can accommodate 2 bikes at a time. It is your responsibility to safely load and unload your bicycle.
- #### Loading your Bike
- Prior to catching your bus, remove any bike accessories such as tire pumps or water bottles that could become loose while the bus is in motion.
 - When the bus arrives, let the driver know that you will be loading your bike onto the rack.
 - Use one hand to hold the bike and the other to unfold the rack.
 - While gripping the rack handle, slightly push in on the rack and release it from its folded position. Then lower the rack down.
 - Lift your bike into the rack placing both tires into the wheel slots (always load your bike into the rack closest to the bus).
 - Pull the support arm up and adjust it securely over the front tire.
 - Oversized bikes may not fit into the rack. Only bikes that allow the support arm to be properly secured will be allowed.
- #### Unloading your bike
- Tell the driver you will be unloading your bike as you exit the bus.
 - Unload your bike from curbside or while directly in front of the bus. Never unload on the driver's side near the flow of traffic.
 - Raise the support arm off the tire of the bike and lay it down into its locked position.
 - Lift your bike out of the bike rack.
 - If there are no other bikes in the rack, lift and push the bicycle rack up to the folded and locked position.
 - Step back onto the curb with your bike and you're ready to roll!
