- Dirt
- Motor Oil
- Roofing material
- Paint
- Rocks
- Sod
- Tile
- Tires
- Cardboard drums (larger than 10 gallons)
- Construction debris (of any kind)

### Batteries

Batteries are considered hazardous waste. Visit [www.call2recycle.org](http://www.call2recycle.org) or call **1-800-8-BATTERY** to find the name and address of a location near you. All types of batteries may be brought to the hazardous household waste drop-off events for recycling.

For more information, please call Fresno County Resources Division at (559) 600-4259.

### Repurposing made easy:

The City of Clovis has partnered with **Habitat for Humanity Greater Fresno Area** and the **Clovis ReStore** for a pilot project to divert reusable items (appliances, furniture, etc.) from hitting the landfill during community clean up days.

The process is very easy. ReStore representatives will be in your neighborhoods during pick up days looking for reusable items that can be salvaged and sold at ReStore to generate funding for Habitat's Home Building and Preservation programs in our City. A donation receipt will be left at your door if something is picked up.

So, if you are remodeling, have **extra building materials** (paint, etc.), or **changing out fixtures around the home**, think about keeping them in good shape to donate to a worthy cause, and to help save them from hitting our landfill.

For any questions on what to donate or to schedule a donation pickup at your home, please call Clovis ReStore at (559) 237-7867.

The County of Fresno Regional Household Hazardous Waste (HHW) Facility is now open to County residents for the disposal of paint, pesticides, used oil, batteries, electronic waste, and other products that are considered hazardous waste. There is no charge for residential waste, but there are limits on the types and quantities of items accepted.

The HHW Facility is located at the County of Fresno's American Avenue Disposal Site, 18950 W American Ave, Kerman, CA 93630.

For more information, please call Fresno County Resources Division at (559) 600-4259.
