1033 FIFTH STREET • CLOVIS, CA 93612

Construction & Demolition (C & D) Self-Haul Waste Management Plan Instructions

1. Prior to permit issuance for a covered project, an applicant shall submit a complete “Waste Management Plan” (WMP).
2. A permit will not be issued unless the WMP demonstrates compliance.
3. The Waste Management Plan (WMP) shall contain the following:
 - a. The estimated weight of waste to be generated by material type.
 - b. Anticipated weight of materials that can be diverted via reuse, recycling, or salvage by material type.
 - c. The names of the approved process site(s) and/or recycling facilities the material will be hauled to.
 - d. Identification of the persons and/or entities that will be transporting the materials and a description of the method used to transport the materials.
 - e. Estimated weight of construction and demolition debris that will be disposed at a landfill.
4. A waste management plan will only be approved if all the information is provided and the Waste Management Plan (WMP) indicates compliance with the 65% diversion rate.
5. As a condition of the Final Inspection, a Waste Management Report shall be submitted with the appropriate weight tickets to the City. The documents required to be submitted to the City are:
 - a. Actual weight of waste generated by material type. (Weight tickets).
 - b. The volume or weight of material that was diverted via reuse, recycling, or salvage by material type (Weight tickets).
 - c. The name(s) and addresses of the approved process site(s) and/or recycling facilities the materials were hauled to.
 - d. The actual volume of the weight of construction and demolition debris that was disposed of at a landfill. (Weight Tickets)
